PROJECTS

Juice eCommerce Website – UI/UX Designer | Figma Link

- Designed a responsive high-fidelity e-commerce website in Figma, ensuring seamless navigation across desktop and mobile layouts.
- Built an interactive end-to-end prototype with realistic user flows, shopping cart interactions, and micro-animations.
- Established a robust design system utilizing Auto-Layout, reusable components, and a cohesive color palette to maintain brand consistency.
- Optimized visual hierarchy and checkout paths to create a highly intuitive, accessible, and engaging digital shopping experience.

Detection of Parkinson's Disease Using Machine Learning

- Built a non-invasive, scalable machine learning screening system to support early-stage Parkinson's disease risk assessment.
- Processed raw patient biomarker data, such as vocal acoustic features and kinematic drawings, applying preprocessing and standard scaling.
- Used robust classifiers to detect the presence of the disease, achieving high diagnostic accuracy and showing how machine learning can assist healthcare professionals.
